

# Msc. In Shipping operations (2 Year Distance Learning)

## SOLENT UNIVERSITY

# Introduction:-

Is it time to take your maritime career to the next level? This two-year distance learning programme is ideally suited to maritime professionals who are hoping to move into shore-based management positions. You'll learn specialist skills in ship safety management and shipping operations, solving complex problems during challenging workplace assignments.

# Facts & Figures:-

- ❖ **Duration:-** 2 Year ( Distance Learning)
- ❖ **Fees:-** 14550 Pounds
- ❖ **Start date:-** September Every Year
- ❖ **Mode of conduct:-** Online / Distance learning
- ❖ **Number of nationalities:-** Worldwide

# Core modules

## ➤ **International Maritime Context**

This module is particularly designed to engage students in developing their skills of critical evaluation and evidenced argument (complementing work in the parallel study skills module) by starting from the student's own experience and encouraging consideration and questioning of that experience from different perspectives.

## ➤ **Postgraduate and Self-managed Study**

This module is specifically designed for working professionals who, while perhaps very senior and experienced in their own fields, have little familiarity with the demands and expectations of higher education (at postgraduate level in particular) and may be returning to education after a long gap.

## ➤ **Business Research Skills**

The module is intended to deliver a fuller understanding of the skills and attributes of postgraduate study.

## ➤ **Professional Skills and Practice Portfolio**

This module provides the opportunity to create an evidence-based portfolio that illustrates how a student's existing professional skills and their prior experiential learning shape practice and allow them to operate effectively in their present role.

## ➤ **Project**

The Project is the culmination of studies for the MSc and enables students to draw together their learning from other elements of the course, including their specialised option strand, and to apply this to in-depth research and investigation of a self-generated topic within their workplace.

# Specialised modules

## ➤ Risk and Safety Management

This module is one of the four comprising the Risk and Safety Management optional strand within the MSc Shipping Operations. The principal intention of the module is to consider and critically evaluate a range of theories and methodologies of risk and safety management and their implications for the management of shipping operations.

## ➤ Legal Process

As part of the risk and safety management strand, this module is concerned with the legal aspects of safety processes and how these impact upon individuals and organisations within the international maritime industries, including issues of jurisdiction and individual and corporate liability.

## ➤ Safety Culture

As part of the risk and safety optional strand, this module critically explores the concept of a safety culture within the context of maritime sector requirements.

## ➤ Accident Investigation and Organisational Learning

As part of the risk and safety management optional strand, this module critically explores accident investigation and organisational learning within the context of maritime sector requirements.

# Accreditations:-

## Times Higher Education Most Improved Student Experience Award

In 2015 the University won the Most Improved Student Experience Award at the Times Higher Education Awards. The award is based on student votes from the Times Higher Education's Student Experience Survey, where up to 20,000 students are polled by a specialist student market research agency to rate academic reputation, teaching, social life and facilities of their universities.

## Chartered Institute of Public Relations (CIPR) regional PRide Community Relations award

In November 2017 Solent's Showcase Gallery's Small Faces Exhibition won the CIPR [regional PRide Community Relations award](#). The exhibition saw over 7,000 postcard sized self-portraits drawn by people of all ages and walks of life – from 2 to 92 – and every submission was displayed.

# Why this Course/Benefits of the course:-

## Facilities

Students study in the heart of Southampton - a major hub in the UK and European maritime and shipping industry. Our vibrant campus brings state-of-the-art facilities to enhance your learning and elevate your student experience. Our award-winning teaching building, The Spark is centred around students and offers a stimulating study environment with flexible learning spaces. And as Solent is an Adobe Creative Campus, all students also have free access to Adobe Creative Cloud, which includes the full suite of Adobe professional software, including Photoshop, Illustrator, XD, Premier Pro, and more.

## Alumni Network

Alumni community of more than 75,000 talented individuals just like you, located all around the world - each with a special connection to Solent University.
