

Global Business Administration (International Supply Chain and Logistics) MBA

Introduction:-

- This flagship two-year Global MBA offers you the opportunity to immerse yourself in the world of business, engaging with some of the most contemporary challenges faced by global business leaders.
- The **International Supply Chain and Logistics** specialism aims to support students to identify the key issues that are driving the globalization of industries and markets and to further explore the main activities, structures, and management of global and international logistics systems and supply networks.
- This applied MBA will provide you with the knowledge foundations of business before offering the unique opportunity to specialize in your chosen industrial field, allowing the flexibility to shape your study based on your career aspirations. It is designed to develop creative, flexible, and aspirational leaders of the industry.
- You will be immersed in fundamental business principles. These core foundations of business integrate cross-cutting themes relating to the global challenges shaping today's business environment, including technological change, the global political and economic context, social and demographic change, and environmental crisis.
