CAREER OPPORTUNITIES

- **General information about the employment market:**

The Logistics and Transport Industry is dynamic and operating smoothly. Currently responsible for over 2 million jobs in France, the market is set to expand by around 1.5% per year.

The constant growth of E-commerce supported by new technologies, related consumer habits and the impact of Big Data are creating change and causing companies, particularly in industry, to rethink how they are organised and how their systems operate.

New skills such as interdisciplinary expertise are expected, with more capacity to progress in an international and multicultural environment where mobility and the ability to bring together virtual teams are keys to success.

- **Example of positions:**

Supply Chain Manager, Industrial Operations Manager, Planning/ Scheduling Manager, Procurement Manager, Logistics Flow Manager, Product Manager, Industrial Buyer, Supply Chain Controller

- **Graduate employment data (based on 2019 employability survey):**

93% net employment rate
88% in executive employment
83% on permanent contracts
73% of students found a job before graduating; 86% of graduates found a job in under 2 months.
Average gross annual salary including bonuses for the last 4 year groups in similar logistics/supply chain roles: €44,900
44% at medium-sized companies (250 to 4999 staff)
31% at SMEs (10 to 249 staff)

- **Examples of organisations:**

Airbus, Décathlon, Saint Gobain, STEF, TOTAL, IKEA, BOLLORE

ADMISSION CRITERIA

Candidates must hold a four-year in Higher Education level (Bachelor degree, Master 1, or equivalent).
Other profiles may be accepted on derogatory terms.
Language requirements for non-native speakers : IELTS 6, TOEIC 790, TOEFL IBT 83 or proof that English was the candidate's language of study or work for at least a year.
