

MSc International Logistics and Supply Chain Management

Introduction:-

1. In order to gain a competitive edge for management roles in the logistics and transport sectors international logistics and supply chain managers need to use data and analytics to improve business performance.
2. MSc International Logistics and Supply Chain Management trains you in analytical approaches and applying management techniques to solve business problems arising from supply chains, including areas such as transportation, warehousing and inventory and supplier relations. It has been designed with industry input in response to sector skills gaps and is located at our [Southend](#) campus, close to London's major port, providing potential opportunities for site visits and placements.

Alumni Network

You will be a part of a diverse global alumni community more than 100,000 Essex graduates in 150 countries.

Academic skills and study support

The course leader has the overall responsibility for your course and will be your first point of contact.

We also allocate you a personal tutor, who you meet soon after you join the department. Their role is to support your personal and academic development and act as your point of contact for queries or problems.

Careers and placements:-

We believe a person's potential is not simply defined by grades or backgrounds, but by a willingness to question, to collaborate and to push at the edges of knowledge and their own potential. At the University of Essex we've been challenging conventions since 1964 – come and challenge us!

Application Requirements:-

A degree with an overall grade of between 55% to 60% OR 6.0 to 7.0/10
OR 2.4 to 2.8/4 depending on the degree institution

English language requirements

If English is not your first language, we require IELTS 6.5 overall with a
minimum component score of 5.5
