Amit Suri

SEEK RED, Founding Partner & CEO TWAGAA, Founder & CEO
Mumbai

Summary

I like to think of myself as a person who pursues his passion. So professionally I have been a Salesman for a video games company, an Engineer in Merchant Navy, a Systems Manager at an MNC, an Entrepreneur with Seek Red, an Artist on few projects... among other odd things.

But more than that I have been a satisfied ambitious person who tests limits of what-I-know, experiments with unknown for what-I-can-achieve and while at it... be high-spirited, contented and enthusiastic.

Does this make sense on LinkedIn? :)
Does it matter if it does not? ;)

We help you Communicate better.

We begin by understanding your vision, your deep-seated thought process and your anticipated outcome.

Subsequently, we shape your perception into a tangible solution by bringing together all the tenets of design and technology under one roof to succinctly convey who you are, what you do and what you stand for.

We are Bridge Builders. Our bridge connects "Your Thoughts" and "Your Results".

Designs, Websites, Software, and Merchandises are our "Brick and Mortar".
