

**MSc in Global Logistics and Supply Chain Management**

## Introduction:-

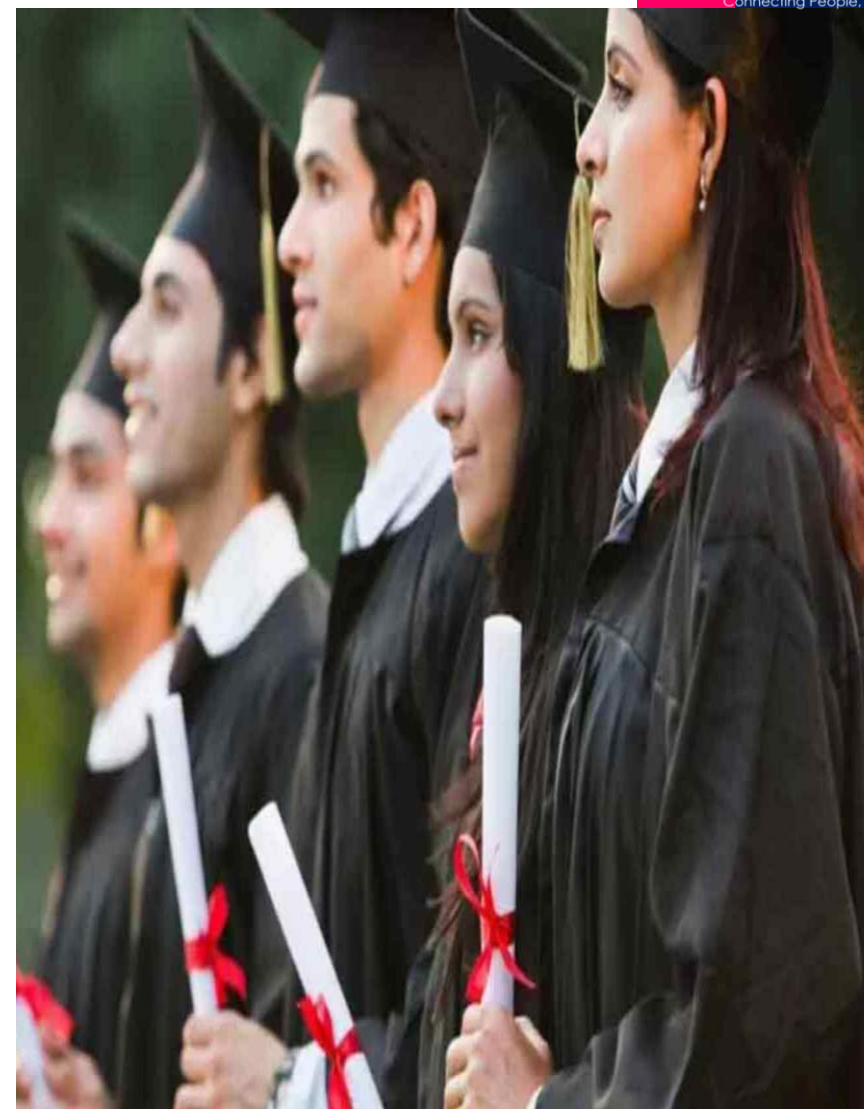

- This course provides the essential framework, concepts and toolkit required for the strategic management of logistics and the supply chain.
- Within a business context, it is now recognised that one of the main ways in which competitive advantage can be gained, is through the effective and efficient management of the supply chain - the term used to describe the flow of products or services from their point of origin through to the final point of sale or use. Logistics is essentially an interactive process within the supply chain; it seeks to optimise these flows, from both a physical and information standpoint.

## Accreditations:-

Our Logistics and Supply Chain Management MSc course is accredited by the Chartered Institute of Logistics and Transport (CILT) and the Chartered Institute of Procurement and Supply (CIPS). You will also have access to industry planning software 'SAP Enterprise Resource Planning (ERP)' which allows businesses to organize and manage business operations to give you the opportunity to experience how decisions are made in industry.

## Huddersfield– UNITED KINGDOM

1. **Huddersfield** is a [market town](#) in the [Kirklees](#) district in [West Yorkshire](#), There are 2 ways to get from the University of Huddersfield to Huddersfield Station by taxi or foot by taxi its **by taxi is 2 minutes away and by walk its 11mintues away.**

## 2. Advantages

- High levels of employability
- 96.6% of our postgraduate students go on to work and/or further study within fifteen months of graduating, with an average salary of £30.3k
- Industry standard facilities
- Award winning academics with professional experience
- World research ratings
- Good business links
- Choice of courses
- Variety of teaching methods

# Why this Course/Benefits of the course:-

Location-wise, I preferred the north of England. Huddersfield is pocket friendly for students (relatively cheap) and is located between two major cities of the north, Leeds and Manchester, with easy access to both.

The university has a plethora of courses available and the programmers' are student-friendly. Being a gold-rated university for teaching excellence, students have easy access to all the faculty members who provide one-to-one support whenever needed. The diversity of the student community is remarkable and the campus facilities in terms of libraries, cafes and gyms are made seamlessly available to all the students.

1. Benefits of course
2. High quality teaching
3. Low cost of living
4. Good local transport
5. Walkable city
6. A strong international community
7. Good job prospects and opportunities

# Placements/Career Prospects:-

- Work with the best - Our students have gone on to work for companies like The BBC, Sky, Burberry, Red Bull F1, and KPMG to name just a few.
- Graduate employability - Some of our students return from their placement with sponsorship and the offer of a permanent job after they graduate.
- Get paid\* - your placement year is usually paid and you are regarded as a regular employee undertaking a real job with appropriate responsibility.
- All the support you need - you will be allocated a work supervisor and your School placement unit should be in regular contact.
- Enhance your CV - All employers value work experience, even if it's not in the same area of work, and some will require it for certain graduate roles. Getting this on your CV is vital evidence of what you can do.

# Application Requirements:-

## Graduate Degree

**Level of English required** for admission to the specialisation course: TOEIC 780 / IELTS 6 / IBT 85 (candidates with at least 1 year of studies or professional experience in an English-speaking country are exempted). For admission to the preparation course, the level of English is recommended but not mandatory. It will have to be validated to enter the 2nd year.
