

Msc Logistics and Supply Chain Management

Introduction:-

- Integrate your business skills with mathematical analysis for a modern operational career with this MSc Logistics and Supply Chain Management degree course. You'll explore the flow of information between suppliers, manufacturers, retailers and consumers, and find ways to streamline your company's activity for improved effectiveness and efficiency.
- You'll be working with quantitative data and analytical techniques, applying developments in logistics technology, and learning from professional research into the current issues in operations and supply chain management. You'll have access to industry-standard software such as Simul8, and to case studies drawn from live problems in the profession. You'll plan and produce a personal research-driven project, perhaps with an industrial partner organisation, and will study with lecturers who contribute to both the academic and industrial streams of this sector.
- You'll graduate with all the tools required for a career in logistics and operations management, either in the UK or further afield.

Benefits of course

1. rated UK university
2. Portsmouth graduates earn more
3. 5 Star QS Rating
4. Reliable support network
5. Top 10 rated subjects

Placements/Career Prospects:-

- A placement year degree (also known as a sandwich degree) is a great way to apply skills you learn on your course and increase your employment opportunities for when you graduate.
Most employers prefer to take on graduates with professional work experience and many of our students are hired by their placement employer after graduation. When you finish your placement year degree, you'll be in a great position for a role in your chosen career.
You don't have to work for an employer on a placement year. You can also become self-employed and start your own business.
- You'll be in experienced hands, helped by careers advisers with an excellent track record. We have high graduate employment rates – 94% of our students are in work and/or further study (HESA Graduate Outcomes Survey conducted in 2019/20). This is largely due to the careers support Portsmouth students receive.
- Software Developer Apprentice. Lockheed Martin Corporation4.0. ...
- Pharmacy Assistant/Dispenser. ...
