

MSc Logistics and Supply Chain Management

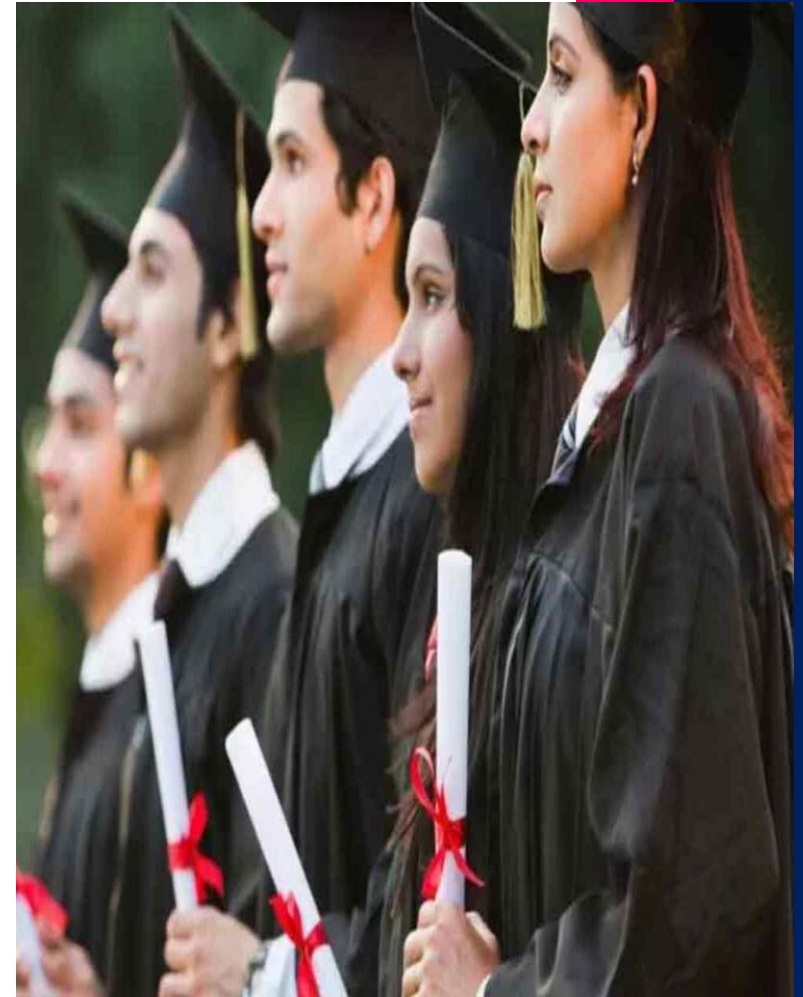

University of
Sheffield

Introduction:-

1. On our Logistics and Supply Chain Management MSc you'll develop the skills to manage and improve international supply chains. We will show you how the right technology and strategy can give you a competitive edge. We use case studies, practical software, industry links, and company visits to enhance our teaching.
2. By exploring operations, supply chain and green logistics and core sub-disciplines, you'll acquire expertise in the contribution these systems make and the skills necessary to become a future leader in the low carbon area.
3. You can apply to do a company-based dissertation, working with an external organization. Recent dissertation projects include working with a large logistics company to reduce their fleet's carbon footprint and a report for an electrical company on the supply chain and market structure of their goods industry.
