

Liverpool John Moores University Redwood Building

Introduction:-

Liverpool John Moores University is a distinctive, unique institution, rooted in the Liverpool City Region but with a global presence.

Our students and staff, past, present, and future, are the beating heart of our city and can be found in every corner of every industry and community. We couldn't exist anywhere else and have shaped this place we belong to.

Working with the people of our city to improve lives and support communities is at the heart of why we were founded and why we exist today.

Growing and supporting our community is a commitment to work in partnership on an inclusive and positive future for all of those around us.

The world is changing at incredible speed, and we believe our mission is to develop exciting, brave, resilient people and embrace effective, impactful change.

Our values

Our approach to everything we do, guiding our attitudes and behaviours, is defined by our four values.

Location and Advantage:-

Liverpool, England

A university of the city

They have two campuses and 30 buildings. We also have big plans for the future.

We're very proud of our campuses. Not only because they provide a modern and inspiring learning space for all of our students but also because they're a place people really want to be.

Our campuses are a bustling hive of activity. People will be studying, chatting over a coffee, relaxing with friends or taking part in one of our events. You'll see friendly debates between academics, people talking to our student reps and study groups working on joint projects.

We have impressive plans for our campuses; plans that will benefit not only our students and staff, but also people living, working or visiting Liverpool.

It's an exciting time.

Alumni Network

Stay connected as a graduate of LJMU

Be part of your alumni community and continue your relationship with LJMU; working in partnership with the University, sharing your passion and knowledge to benefit our students, yourself and the wider community.
